SACE points

We are so excited that we have been awarded SACE points for most of our webinars this year. Please note the process for points being allocated to individual SACE members. Members must complete and submit the google document available at the end of every webinar. This acts as a register and is submitted directly to SACE by SAALED. We would like to assure our members that we submit our registers to SACE timeously. SACE acknowledges receipt of the register then allocates the points to individual members. The timing of this part of the process is unfortunately out of our hands as we rely on SACE. SAALED are not informed when this process is complete. It is therefore up to individual members to check their own SACE profiles for these points. Any queries need to be directed to SACE.

Please see the summary of the points we have received thus far for webinars this year.

The three-part Mathematics series - 10 points

The Annual SAALED Seminar - 5 points

Demystifying Dyspraxia - 5 points

Visible Thinking in a Differentiated Learning Space - 5 points

Please note the SACE made an error in their original allocation of points for the Visible Thinking webinar. They have subsequently corrected this and the above is an indication of the correct point allocation.

We have applied for points for this month's webinar, ***Supporting the Child with Reading Difficulties*** to be held on Tuesday the 19 September at 18:00. We are really looking forward to this essential webinar presented by ***Angela Charalambous***. Angela is the owner of The Workshop Reading Centre and brings a wealth of knowledge and experience in reading. This webinar promises to highlight the identification of difficulties in reading as well as vital strategies to support students. We have already had a marvellous response and invite you to join us on the 19th. Please use the link below to book.
